

Rental

Short- and medium-term UPS rental

SYDN_625_A_GB.UPS

Has your UPS broken down? Are you awaiting delivery of your new equipment?
Do you temporarily need more power for a special event?
Whatever the reason, Socomec has a solution for you.

Our rental offer enables you to benefit from a latest-generation UPS system over a short or medium term.

Immediate availability

Cover your urgent needs with our UPS stock ready to be shipped within 4 hours.

Enjoy standard or express delivery depending on your needs.

Absolute flexibility

Rent a UPS system for the exact duration of your project, from one month to several months.

Maintenance and technical support included

Enjoy complete peace of mind with our 24/7 support services included for the duration of the rental.

In the event of an unforeseen event, our hotline is available for you, and a technician intervenes within 24 hours to guarantee the continuity of your operations.

Wide range of UPS systems from 10 to 200 kVA

Benefit from a selection of UPS systems, with various powers for optimal coverage of your critical applications.

Our UPS systems meet the highest manufacturer standards, ensuring compliance and technical performance.

Total peace of mind

From handling your request to selection of the most suitable solution, including shipping and commissioning up to final decommissioning, we take care of everything.

Enjoy absolute peace of mind.
